

Final Formula: $((\text{Laps}-1)*1320)+1168+\text{Measurement}$

1168 is distance from start to split mat 1

Notes about GPS Watches on Tracks:

Your device may have recorded GPS points that deviate from your true path.

GPS will measure longer on tracks, these distances based on line inside Lane 1

Several people have sent strava screenshots with SIGNIFICANT elevation gain

Elevation gain on a flat track is evidence of how GPS struggles on a circuit
